

TECHNICAL SPECIFICATIONS

RATING:	IP68 (Submersible up to 3 metres)
FINISH:	Polished 316 Stainless Steel
LED's:	100,000 hours (dependant on installation environment) 12V DC, 0.3Watts per 3 LED's 6 Surface Mount LED's 20 Milliamps
LED COLOUR:	Green (G) White (W) Blue (B) Yellow (Y) Amber (A) Red (R) Warm White (WW)
RESIN FILL:	Opaque Infill to the Top of the Fitting
LENS:	Acrylic
WATTAGE:	0.6 Watts per fitting
WIRING:	Pre wired with 1mtr cable
MOUNTING:	Dependant on application
POWER SUPPLIES:	Regulated Power Supply (HRPS)

SPECIFICATION CODE: HL401 – (LED Colour)

CONSTRUCTION MATERIAL

Polished 316 Stainless Steel with Opaque Resin Infill

DIMENSIONS

HEIGHT:	40mm high
WIDTH:	70mm wide

APPLICATIONS

- Decks
 - Pathways
 - Pavements
 - Pools
- or similar

Larger cable sizes than normal are required to connect extra low voltage lighting. This fitting must be installed in a serviceable location and the correct maintenance and installation must be carried out to ensure the longevity of all products. Specification may change without notice and this fitting is sold subject to conditions of sale and terms of delivery. E. & O.E.
